

## **DR. SCHMITT GMBH WÜRZBURG - VERSICHERUNGSMAKLER (DSV) IS THE LATEST ADDITION TO THE RVM GROUP**

- **With the industrial insurance broker DSV, the RVM Group is expanding its specific industry expertise and geographical presence in Germany**
- **DSV clients will continue to be served by their existing contacts and the successful offering will carry on under the existing brand**

**Eningen/Würzburg, April 4, 2022** – Following the successful conclusion of transaction negotiations, DSV is now the latest addition to the RVM Group, which represents the Industrial Broker segment in the MLP Group. As a broad-based industrial insurance broker, DSV has more than 50 years of expertise, in particular in the areas of healthcare and commercial properties. In 2021, the company, which employs some 85 staff, generated sales revenue of around EUR 6 million.

"We are pleased to welcome DSV to the RVM Group. DSV's successful business model will continue to be run under the existing brand by the experienced management, ensuring excellent continuity for clients," says Michael Friebe, Managing Director at RVM.

"For us, it was and is important to now be part of a group that offers us a long-term and very stable basis for our further development, particularly for our employees. We will continue to strengthen and expand the offering for our clients," says Gerd Kunert, Managing Director of DSV.

On April 1, 2022, the RVM Group acquired one hundred percent of the shares in DSV from the sole shareholder, HWT Invest AG – with economic effect from January 1, 2022. "While retaining our identity as a medium-sized company, it is our continued aim to expand our position in the market with further acquisitions," says Michael Friebe.
